

What is LIFE IN HARMONY PROMOTION MONTH?

→ It's a promotion month to realize a society of harmonious coexistence with foreign nationals.

Do you know how many foreign nationals live in Japan?
Approximately 3.22 million foreign nationals are living in Japan (as of the end of June 2023).

In the future, it will be important for all residents to overcome differences in nationality and cultures, understand and respect the diversity of the people, and coexist in harmony.

Therefore, starting from 2024, we have designated January of each year as "LIFE IN HARMONY PROMOTION MONTH".
For the duration of the promotion month, the aim is to develop nationwide efforts to realize a society in which all the people in Japan coexist harmoniously.

Vision for an ideal society of harmonious coexistence with foreign nationals

In June 2022, Japan formulated "Roadmap for the Realization of a Society of Harmonious Coexistence with Foreign Nationals".

This Roadmap presents Japan's three visions for an ideal society of harmonious coexistence with foreign nationals.

See here for detail of the Roadmap

Three visions

1 Safe and Comfortable Society

A society where foreign nationals and Japanese build together.
A society where all people can live safely and comfortably.

2

Diverse and Vibrant Society

A diverse and vibrant society where all people including foreign nationals from various backgrounds can participate and demonstrate their abilities to their fullest.

3

Society that Respects Individual Dignity and Human Rights

A society where all people, including foreign nationals, respect each other's individual dignity and human rights and can live without discrimination or prejudice.
