### Save the Children

Save the Children is a non-profit international organization that supports children in 110 countries throughout the world, including Japan. It has been active for one hundred years with the goal of attaining a world that respects the rights of children. In the aftermath of the Great Eastern Japan Earthquake in March 2011, Save the Children carried out emergency and recovery programs in Iwate, Miyagi, and Fukushima prefectures until the end of 2015. Since 2016, we have been offering cash assistance for children that provides a portion of schooling costs, mainly in the Tohoku coastal area and areas affected by large scale disasters, with the aim of reducing the burden of education-related expenses. Over the course of six years, we have continually supported more than 8,200 children with school enrollment, progression onto his/her education, and high school lives. Since 2022, we have been expanding the program to the entire country and the number of children eligible for receiving cash assistance, and we provided cash assistance to 979 students in 2023, 995 students in 2024 and 1,035 students in 2025.
